PROTECTOR®

NO-OVERFLOW TOILET

THE PROTECTOR®

ELIMINATE OVERFLOW WORRIES

With Mansfield's Protector® no-overflow toilet you no longer have to worry about the mess caused by a toilet-bowl clog, nor the unsightly holes of typical no-overflow toilets.

The Protector® keeps dirty toilet-bowl water in the toilet and off of your floor by draining excess water through an overflow system concealed within the bowl. Water that rises, if the toilet is clogged, drains directly into the drain line.

Our highly engineered PuraClean™ glaze makes the bowl easy-to-clean and bacteria resistant.

The attractive design looks great in any bathroom, and the bowl height offers greater comfort, meeting ADA requirements.

THE PROTECTOR®

UNIQUE SECONDARY DRAIN

Concealed within the bowl, a back-up drain directs excess water into the drain line.

IMPROVED STYLING

No unsightly holes, overflow system is hidden within the bowl.

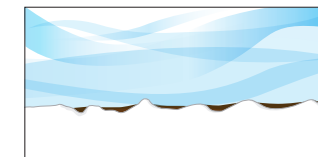

Competitor

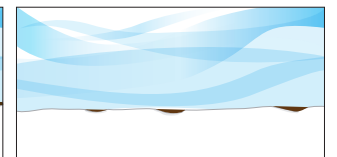

Protector

EASY-TO-CLEAN SURFACE

Highly engineered PuraClean™ glaze finish is 48% smoother** than the nearest competitor, making the bowl easy to clean and bacteria resistant.

3-INCH FLUSH VALVE DESIGN

3-inch opening delivers higher velocity for more powerful flush action—800 gram MaP*.

SIMPLE TO INSTALL CONSTRUCTION

Fast, easy tank installation thanks to our SmartFasten™ System.

ERGONOMIC SMARHEIGHT™ BOWL

16-1/2-inch tall bowl is just the right height to make sitting and standing easier.
